

St Anne's C of E Primary School

Biometric Data Policy

Introduction:

The school aims to ensure that all personal data collected about staff, pupils, parents and carers, governors, visitors and other individuals is collected, stored and processed in accordance with UK data protection law and that it meets the requirements of the [Protection of Freedoms Act 2012](#) when referring to the use of biometric data.

Current status of the school:

At this current time the school does not process any biometric data. The school has no plans to introduce systems that require biometric data retention.

In the event of the school deciding to use systems that require biometric data retention, the following guidelines will apply:

(Note that in the context of the Protection of Freedoms Act 2012, a "child" means a person under the age of 18)

- Where we use pupils' biometric data as part of an automated biometric recognition system (for example, pupils use finger prints to receive school dinners instead of paying with cash we will comply with the requirements of the [Protection of Freedoms Act 2012](#)).
- Parents/carers will be notified before any biometric recognition system is put in place or before their child first takes part in it. The school will get written consent from at least 1 parent or carer before we take any biometric data from their child and first process it.
- Parents/carers and pupils have the right to choose not to use the school's biometric system(s). We will provide alternative means of accessing the relevant services for those pupils. For example, pupils can pay for school dinners in cash at each transaction if they wish.
- Parents/carers and pupils can withdraw consent, at any time, and we will make sure that any relevant data already captured is deleted.
- As required by law, if a pupil refuses to participate in, or continue to participate in, the processing of their biometric data, we will not process that data irrespective of any consent given by the pupil's parent(s)/carer(s).

Where staff members or other adults use the school's biometric system(s), we will also obtain their consent before they first take part in it, and provide alternative means of accessing the relevant service if they object. Staff and other adults can also withdraw consent at any time, and the school will delete any relevant data already captured.

Approved by Governors: November 2023
