

Primary PE and Sport Premium Funding 2023/2024

St Anne's Primary School

Current number of children on roll (Reception – yr6) – 199

Number of children eligible for Sport Premium Funding – 199

Funding received: £17,500 (estimated)

Background:

The Government have provided funding of £150 million for Physical Education (PE) and sport to schools. This funding should be used to improve the quality and breadth of PE and Sport Provision. The funding is for the period of 1^{st} September 2016 – 31^{st} July 2017. This funding is rung fenced to be used for specific areas to make a sustainable impact in Physical Education and Sport in schools.

Schools are free to determine how best to use this funding to improve the quality and breadth of PE and Sport provision, including increasing participation in PE and Sport so that all pupils develop healthy lifestyles and reach the performance levels they are capable of.

The revised vision for the Primary PE and Sport Premium is:

All pupils leaving primary school physically literate and with the knowledge, skills and motivation necessary to equip them for healthy lifestyle and lifelong participation in physical activity and sport.

Objective: To achieve self-sustaining improvement in the quality of PE and sport in primary schools.

It is expected that schools will see an improvement against the following 5 key indicators:

- 1. The engagement of all pupils in regular physical activity –kick-starting healthy active lifestyles.
- 2. The profile of PE and sport being raised across the school as a tool for whole school improvement.
- 3. Increased confidence, knowledge and skills of all staff in teaching PE and sport.
- 4. Broader experience of a range of sports and activities offered to all pupils
- 5. Increased participation in competitive sport

Provision invested in Cost Description Continued staff development in using the Real PE materials for the delivery of PE within the curriculum. To ensure that an assessment scheme is embedded this year to monitor children's progress in acquiring skills within physical education. To ensure that an assessment scheme is embedded this year to monitor children's progress in acquiring skills within physical education. Staff, including sports coaches, will have secure knowledge of the schools PE curriculum and be confident in delivering the Real PE materials. The development of the PE curriculum will work to ensure that the school is promoting healthy life styles for all children as well as developing key motor skills and building team working skills and helping structure that was unsuitable for younger children. E12,000 Interest and interest in a season and interest in the last 18 months. The PE Coordinators will now ensure that a clear PE curriculum overview is produced, intenti, implementation and impact is communicated and scrutiny on the delivery of PE is recorded. The seal PE curriculum overview is produced, intenti, implementation and impact is communicated and scrutiny on the delivery of PE is recorded. This will feed into the PE coordinators Action Plan for further development of the PE curriculum. Staff, including sports coaches, will have secure knowledge of the schools PE curriculum and be confident in delivering the Real PE materials. Qualified Sports coach to support games and activities at break times.	sports clubs / qualified coach,	encourage them to take part in various games and activities at lunchtime.	increased participation in sport and also allowed children to try activities without needing to stay after school.
Transport to various sporting competitions across the course of the year.	£1000	Providing transport to local sport competitions and tournaments removes barriers and allows children to take part in competitive sport with groups of children outside of the St Annes community. St Anne's is a member of the local Huntingdon Primary Partnership (HAPP) group. Various inter school competitions and tournaments are set up each year for schools to participate in.	Children will have access to a variety of different tournaments throughout the year. Children develop their team working skills and personnel, social and emotional development in taking part in competitive sports activities. Children feel proud of achievements and representing the St Annes community within the area. Promotion of healthy lifestyles.
Developing links with other sporting organisations to deliver a varied range of sports to children at St Anne's.	£1200	The school is keen to utilise links with local sports clubs and groups. There are close links with local cricket and tennis groups who run sessions with KS2 children in the summer term. This year the school is developing links with NFL Flag (a non-contact version of American Football). One member of staff and the sports coach are trained NFL flag coaches and are able to deliver NFL flag to upper KS2 through their PE lessons. After school club is in place and school participates in the local NFL tournament.	Children have access to high quality coaching in a sport that they may not have tried before. This opens up further opportunities for children. Inspirational talks from good role models will inspire children to have active lifestyles as well as develop key skills such as sportsmanship, discipline and teamwork.
High quality physical resources for PE and sports lessons as well as maintenance and renewal of existing equipment.	£2000	The school recognises that it is important to provide appropriate resources for PE and Sport lessons as well as at play time, enabling children to get maximum benefit from the activity they engage in. There is an ongoing audit of sports equipment within the school. Various equipment is renewed each year such as balls and bats, bean bags, cones etc. Further health and safety inspections will inform further areas that need to be refreshed or maintained in line with Health and Safety.	Renewal of various equipment on a rolling program.

Supplemented after school club provision enabling a range of sporting clubs afterschool to run regardless of numbers of children involved.	£1500	The school recognises that it is important that there is a range of after school sports activities on offer for children each week. By using regular sports coaches who are familiar with the school and the children, a range of clubs can be arranged. The cost of the coach is supplemented by the school to enable the school to trial new sporting opportunities such as archery club, dodge ball, multi skills club, gymnastics, regardless of pupil take up so that there is no minimum group size and clubs can always run.	Whilst there is a small charge for after school sports clubs, the school provided financial support to allow sports clubs and groups to take place regardless of 'minimum numbers' and to ensure no child is unable to take part on financial grounds. This allowed all children who wanted to take part in sport the ability to do so.
Swimming – The school does not have a swimming pool but is committed to being able to provide Swimming as part of the curriculum as well as opportunities to swim after school	£4000	It has been difficult for the school to be able to provide swimming on a regular basis. Many of the local pools are fully booked during the school day. Elite Swimming are able to provide a temporary Pop Up Swimming Pool to be delivered to the school site. This is for a short period of time (approx. 2 weeks). Children in upper KS2 will be taught swimming on a daily basis over the 2 week period to enable them to fulfil the National Curriculum requirements. Children are also able to take part I additional sessions after school to improve technique.	To enable swimming to take place on the school site, he school has had to hire in a temporary swimming pool. This service also provides qualified swimming teachers and a lifeguard to enable quality swimming lessons to take place.
Total Spending:	£25,500		

Please note that this plan is not complete and can be added to throughout the year as the school develops further opportunities in supporting sport and healthy lifestyles within the school.
