

FRIDAY ROUND UP

21st November 2025

MESSAGE FROM MR FARRELL

Girls' Football – Henson Cup Victory

A huge congratulations to our brilliant St Anne's girls' football team, who secured an impressive 4-0 win against Sawtry Academy in the first round of the Henson Cup. The girls were outstanding from start to finish, showing rock-solid defending, excellent passing and confident finishing. Their teamwork and determination shone throughout the match.

This fantastic result puts St Anne's through to the second round, where we will face the winners of St Helen's vs Wintringham. The next fixture will also be at home and will take place before the Christmas break. Well done, girls – a superb achievement!

U11 Pokémon Cup – Mixed Football Tournament

Well done to our fantastic Year 5 and 6 boys who represented St Anne's at the U11 Pokémon Cup Mixed Football Competition in St Ives on Tuesday.

While the team didn't finish in the top three, they played with passion, determination and brilliant sportsmanship from the first whistle to the last. They supported one another throughout and represented the school with pride. A big thank you to the families who came along to cheer them on, and to the Hunts School Sports Partnership for organising another great event.

PTA Christmas Fete – Save the Date!

I've just met with our amazing PTA, and planning for this year's Christmas Fete is already well underway. It promises to be a fantastic community event, and we would love to see as many families as possible join us.

🎄 **Save the date: Friday 12th December, 3.45pm** 🎄

More details will follow soon!

Wrap up warm!
Best wishes,
Mr Farrell

CLASSROOM NEWS

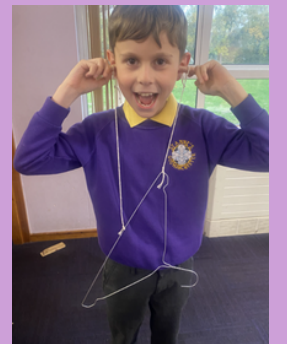

CLASS 3

In science, class 3 have been learning how to plan fair investigations and have begun our own experiment to discover which substance cleans dirty coins the best. We're excited to check our results on Friday afternoon and see which one works the best.

CLASS 4

In Science, Class 4 carried out not one, but four (!) different experiments to explore how vibrations from sounds travel through mediums (such as solids, liquids or air) to the ear. We watched sugar 'dancing' on a Bluetooth speaker, listened to vibrations through a coat hanger and string (pictured), heard rocks being hit underwater through a plastic bottle, and listened to people speaking through balloons!

CLASS 5

Wednesday afternoons in Year 5: a DT/MFL combo that brings a little Spanish sunshine on a cold November day! We are so grateful to Mrs Thompson from our Midday Cafe for sorting out these culinary delights for us.

CLASS 6

Year 6 have been enjoying basketball this term. They even braved the chilly weather this week to practise some attacking and defending. They've been learning how to pass, dribble and look for spaces whilst playing. They're looking forward to playing some games soon to put all their skills into practice.

SEND Hints and Tips by Miss Tavender

Understanding Autism

Understanding autism in children begins with recognizing that each child experiences the world in their own unique way. Autism affects communication, social interactions, and behavior differently for every individual, so there is no single “right” way it looks. By noticing a child’s strengths, challenges, and sensory needs, caregivers and educators can create supportive environments that help them thrive. Patience, empathy, and a willingness to learn from the child are key to fostering connection and building confidence

SEND is everyone’s business

ST ANNE'S PTA
